## Education

**Mount Kenya University** — May 2024 – Present
B.Sc. Computer Science (Third Year) — Thika, Kenya

**Power Learn Project Africa (PLP)** — July 2025 – Nov 2025
Professional Certificate in Full Stack Software Development — Remote

## Technical Skills

**Languages**: TypeScript, JavaScript, Python (Basics), C, SQL
**Frameworks**: React.js, Node.js, Express.js, Bootstrap CSS, Tailwind
**Databases**: MongoDB, MySQL
**Tools/Concepts**: Machine Learning (In Progress), AI Foundations, MERN Stack, Git, Render

## Technical Projects

**Power Cast (Energy Prediction)** | *React, Node.js, Python, TypeScript* — 2026

- Engineered a predictive energy monitoring web app to visualize consumption trends and forecast future demand.
- Integrated Python-based predictive logic with a MERN frontend for a seamless data-driven UI.
- Project Repository

**UI-Forge** | *MERN Stack, TypeScript* — 2025

- Developed a component library platform for developers using TypeScript to ensure strict type safety.
- Implemented RESTful APIs and secure JWT authentication for user-contributed UI elements.
- Project Repository

**Regen Mapper** | *React, Leaflet.js, TypeScript* — 2025

- Engineered a geospatial tool for reforestation tracking, implementing interactive mapping features.
- Project Repository

## Certifications & Extra-Curricular

**UniAthena:** Professional Certificate in Basics of Python (Feb 2026); Basics of AI (Ongoing)
